III Councillor, a statement showing the rates of octroi duty levied in other municipalities in the District with those proposed for Kadaba. The rates of duty on Betel leaves and Tobacco in Chickmanglur hath are less than those in other places.

Under the standing orders, each municipality is allowed to introduce rates which it considered suitable provided that the maximum rates prescribed by Govt are not exceeded Hence the want of uniformity of rates even in the municipalities of the same District

submitted for orders.

Note for file

Korteszre is the head quarters of a Sub Zaptieh & as such is perhaps distinguishable from the other two municipalities. It is however such a small place and contains such a small population that I hesitate to authorize the levy of octroi thereat even though it might under the new Regulation ~~not be~~ be ruled under the list of municipalities and not be removed from the included in that of Village Unions. This requires further consideration. In the meantime the same order may go in regard to all three Municipalities.
